- Colors: Blue, Silver

POWERED BY

HYPERKEWL™ PLUS

Our unique HyperKewl™ PLUS fabric absorbs, stores and releases water within the multi-layered structure. Water is "released" through evaporation, energy is consumed, and a chill effect is created.

1. Submerge the item in water for 1-2 minutes
2. Gently squeeze out any excess water
3. Wipe dry and the item is ready to be used

The item will remain activated for 5-10 hours and can be re-hydrated by repeating these simple steps.
