COOLING PRODUCTS

POWERED BY

HYPERKEWL™ PLUS EVAPORATIVE COOLING

HyperKewl™ PLUS Evaporative Cooling material is a unique fabric that absorbs and slowly releases water through evaporation. When the water evaporates, a cooling effect occurs. We look at this process as "super-charging" the body's natural cooling process, thereby helping the wearer to combat heat stress.

HOW TO USE :

1. Soak in water for 1-2 minutes
2. Gently squeeze out excess water
3. Your HyperKewl™PLUS Item is ready to wear!

- 5-10 hours of cooling per soaking
- Provides cooling up to 10-15° cooler than the ambient temperature
- Machine Washable 140°F/60°C

POWERED BY

COOLPAX™ PHASE CHANGE COOLING

CoolPax™ is our Phase Change Material (PCM) cooling technology. It uses a non-toxic carbon-based liquid that freezes at 58°F/14°C and remains at that temperature for 2-3 hours.

HOW TO USE :

1. Simply place CoolPax™ inserts in freezer or ice water for 35/40 minutes
2. Insert activated CoolPax™ into garment pockets
3. Your CoolPax™ Item is ready to wear!

- 2-3 hours of cooling per activation
- Remains at a comfortable 58°F
- Activates in 30-40 minutes under conditions below 58°F

6529

Evaporative Cooling SPORT VEST

Powered by
HyperKewl™PLUS

Colors: Black, Silver, Blue,
Khaki, Pink, & Hi-Viz Lime
Sizes: XS - 3XL, Custom
*Some colors are also
available in children sizes

HEATING PRODUCTS

POWERED BY

HEATPAX™

AIR ACTIVATED HEATING

Our HeatPax™ technology is designed to keep your extremities warm in cold conditions. HeatPax™ contains a mixture of ingredients that create heat when exposed to air.

HOW TO USE :

1. Open package to expose HeatPax™ to the air
2. Insert activated HeatPax™ into garment pockets
3. Garment is ready to wear! (HeatPax™ may take about 10 minutes to reach maximum heat)
